American Ingenuity Rises to the Occasion

Hydrogen generators for cars appear to be for real and, if so, they can increase your gas mileage up to 50%.

Carolina Nickel is currently investigating the matter with a major university chemistry professor. We are seeking to discover and incorporate, into a locally manufactured product, the very best refinements in design and construction. They are being made with the goal of developing the greatest improvement in gas mileage and safety, based on actual scientific evaluation.

Stay tuned for more on this exciting development which may provide us with a giant leap forward toward Energy Independence.

UGLY? **NOTUGLY?**

Corruption, Misconduct, Criminal and & Human Rights Violations by Officials and Judiciary of the States of the United States

in Violation of;the States' own and federal Laws and Constitutions,the United Nations Conventions and Treaties to wit On Human and Political Rights, Charter 77, Rights of Children, Family Rights, and in contravention of every norm of human rights, decency and morality.

"The [above] matter [of atrocities, Due Process Violations, criminal and fraudulent activities] is before the United States Congress". (Authorized Statement)

We are seeking and demanding that Perpetrators of such Criminal Misconduct and Human Rights atrocities be prosecuted. To this end, we are gathering verified affidavits and evidentiary documentation and records of such atrocities perpetrated by the judiciary and officials in ALL the 50 States of the United States for submission to US federal and International bodies for investigation, law enforcement and prosecution purposes. You are cordially invited, indeed urged, to submit your affidavit regarding your case.

In the US, every year multitude of children are kidnapped by the State courts, in conspiracy with county prosecutors and higher state judiciaries, and given to one parent (overwhelmingly to females) in order to collect extortion "incentive" kickback money (\$Billions annually) from the willingly defrauded and colluding federal government (social engineering). In a vast majority of these cases, the children are abused and suffer, with the knowledge, acquiescence and often participation of the said judiciary, from "Stockholm Syndrome" due to perpetration of "Parental Alienation" in "Hostile [and unlawful] Custody Environment" just so that the states, their courts, judiciaries and county prosecutors get their share of the kidnap "incentive" money, i.e. extortion money under Title IV-D (42 U.S.C. 651, et seq.). For a greater understanding and in non-legal language, read this cold (without the individual drama and heartache of the hundreds of thousands of lives, families and children it has destroyed), detailed and illuminating account ("MONEY IS THE ROOT OF ALL EVIL", By Paul M. Clements, July 2008) of the institutionalized fraud and deception nationwide indicating the depth of shame, disgrace, moral depravity and bankruptcy and criminality the United States knowingly and deliberately has sunk to for greed and control upon fathers, mothers and their children using "mothers" as its tool of implementation of such criminal and human rights atrocity against families under its jurisdiction.
