

As long as the government is perceived as working for the benefit of the children, the people will happily endure almost any curtailment of liberty and almost any deprivation.

Mein Kampf, Adolf Hitler

In such a light the following deprivations and atrocities by the United States must be viewed.

Pre-amble

"Child Support" ("CS") Enforcement Kickbacks/incentive under Title IV-D, US Code [42 USC 651](#) et seq. of Social Security Act ("SSA") that unconstitutionally establishes legalised kidnapping of children, destruction of families and incarceration of parents (almost exclusively, fathers) fraudulently for the federal incentive (below) money handed by the US federal government to its 50 states (state government, courts, county prosecutors and counties) as part of a social engineering programme to remove fathers from families in order for the state to exert control of children. The third group of links below indicate the incentive kickback to perpetrate such atrocities. The "incentive" payments are in addition to the reimbursement of the cost of administering per case the collection programme. No doubt to say in order to collect as much incentive money as possible (i.e. trap as many families in the web of this programme), the states, their officials, counties, courts, judges (who issue the orders, at the very least, in conflict of interest as they themselves benefit from the incentive and orders they issue against families), county prosecutors, et al., violate the laws and constitutions and commit crimes and conspiracy to perpetrate such entrapment. Hence, many innocent children and families destroyed and parents criminalised in violation of their human and constitution rights. For a small sample of many cases of such criminal atrocities by officials and judiciary see <http://corruptusjudicialsystem.org/#Announcements,%20News%20&%20Information> and <http://corruptusjudicialsystem.org/#Submit%20YOUR%20Cases%20of%20Corruption%20&%20Misconduct%20By%20Judges> . Since November 2007, the US has sought to stealthily expand this draconian and amoral regime worldwide under the guise of "child welfare" and through the November 2007 Amendment to the [Hague](#) International Convention whereby citizens of other countries while in their own countries will be subject to US laws and liable to be arrested, extradited and brought before US courts (which are invariably corrupt and have conflict of interest in such matters). [This, in addition to destroying families everywhere, also implies the expansion of US jurisdiction into and encroachment upon other nations' sovereignty.] To help oppose this

destructive move by the US, see the [petition](#) to prevent other countries from signing and ratifying this destructive Amendment.

N.B. The file names are self-explanatory. However, the second group of two files below ("overview" and annualreport2congress-glossary" may be reviewed for description of terms and further information. Moreover, please feel free to contact (ahs@swissmail.org) Dr. Amir Sanjari for further information regarding this scourge and crime perpetrated upon families.
